| Pennington        | 2.25   | Grass Creek | 2.25   |
| South Lima        | 2.25   | Big Muddy   | 2.25   |

test on the Blackton acreage in the southeast corner of the W. T. E. & L. company survey and for No. 2 well direct east of No. 2.

The Texon Co. has made a location and will operate partly on the White farm in the northeast corner of the J. E. Harrelson survey. The test will be located three-quarters of a mile southwest of Bessemer in Elstand country. The Magnolia Petroleum Co. No. 1 test on the W. A. Hayes farm and located one-half mile from both the south and west lines of the W. A. Harris (Okla.) Mart. Fischer survey is a location.

The same company's No. 2 on the T. W. Connelly farm and located in the northeast quarter of the Connelly survey is a location. John York survey is a location. The No. 4 well is in the southeast quarter of the Harry's acreage. The same petroleum company is moving in timber for a test on the E. S. Jeter's survey in the northeast quarter of the Mat. Fischer survey while their No. 1 on the Oscar Harrelson farm in the northwest quarter of the Mat. Fischer survey is a location.

The Prairie Oil & Gas Company has made locations and will begin operations shortly on Nos. 2, 3, and 4 on the J. G. Christmas "H" farm, located on the Keppey Miller survey, in Elstand country.

The same company's No. 1 test on the C. G. Keighley "H" farm, located 150 feet from the east line and 250 feet from the south line of the J. A. Sparks survey, is a location. They are also ready to move on their No. 4 test on the E. Barnes farm, located in the southeast quarter of the J. E. Barnes survey, and on their S. J. Whitman farm test in the southeast of the Francis Harrelson survey. The same company's No. 1 on the J. L. Parish farm in the southeast quarter of the Francis Harrelson survey is a location, as is their No. 2 on the E. Hooper farm in the northeast quarter of the John York survey, all in Elstand country.

In Stephens county the Prairie Oil & Gas company are putting up a rig for a test on the O. J. Wood farm and located 2,395 feet from the east line and 3,494 feet from the east line of survey 3,225. In Stephens county the Magnolia Petroleum company have made locations for No. 2 well in the north-

ern part of the state, taking some oil for shipment. The company has offered premium rates for a barrel, and as high as 20 cents it is reported, but producers whose wells are connected to the regular pipe lines do not care to make any change at the offers. Many buyers of Burkhams reside in evidence and more oil would be bought and prompt shipped if it

## En Route, March 23

With a genuine spirit of fraternalism and good will a few of the advanced guard en route to the convention, the members of one end of the oil王的 family, the ancient "parties" came today, and the discussion that followed was great.

Everything from the "League of Nations" to the price of fuel oil, and from "cracking" processes to the new "centrifugal" system, built up like a cream separator, was discussed.

They made a fine forecast of about six sessions that is to be delivered at the convention, with the result that it will hardly be necessary to attend and listen to many of the speeches that are on the program.

It is a jolly bunch, and although none are yet sure of a place to sleep, they are apparently not worried and are doing the contrary to put on another Pullman from Kansas City.

In the bunch are L. N. Oppenheimer of the Standard Refining company, A. Smith of the Arctic Petroleum company, Tulsa, E. C. Borgolte of the Arctic Petroleum company, Kansas City; H. H. Head of the Kansas Oil Refining company, and R. Ross, Hugh W. Stodder, and H. C. Allen, all of the Standard Oil company, and several other prominent oil men.

## Late News From Texas

### (PARENTS MOGULE)

DALLAS, Texas, March 24.—Rain now falling on the north central Texas oil fields will temporarily relieve the growing scarcity of water for drilling purposes. An electric storm in Comanche county set fire to three 1,600-barrel tanks of Tex-Penn Oil company in the Duke-Knowles pool.

In Stephens county the Sinclair Gulf company shot its No. 1 Manning eastern edge of the Caddo pool, with 320 quarts and made a 250-barrel well. The hole showed no oil before the shot.

In Stephens county the Gladys Belle oil company's No. 1 Garrett, a 2,450-foot wildcat well near Abilene, has been put on the pump and is making 200 barrels daily.

In the Ranger pool, Eastland county, the Mid-Kansas Oil & Gas company's layne is flowing 500 barrels. First well on this property, which is in the head of the pool, was a failure. Dunlap and others have a 500-barrel well in their No. 4 rock. The Gladstone Oil & Refining company's No. 1, Stephens county, is being completed. The Superior Oil & Gas No. 1, Hasagman, same locality, is now estimated at 150 barrels.

**Latest Developments in the Texas Field.**

The Producers & Refiners corporation have made a location and are moving in tools and tools for a test on the T. K. Headland, located at the western edge of Hamilton county, Texas.

In Brown county, the same corporation is rigging up on their No. 1 test on the George T. Graham land, located in the northern part of the county, about three miles north of the big Sinclair Oil & Gas Co. well.

In Palo Pinto county, the Texas Co. have made a location for a test on the S. R. Edmonson acreage in the southwest corner of the Hamill-Brown survey.

New rigs and locations in Eastland county are those of the Humble Oil & Refining Co. test on the Scott farm in the northeast corner of the H. & T. B. R. Co. survey, block 6, in section 5. The same company's No. 1 on the Headland, located in the southwest corner of the north half of section 46, block 3, H. & T. Co. survey, is a location while they are moving in timbers for a No. 1

test on the Blackton acreage in the southeast corner of the W. T. E. & L. company survey.

The Texon Co. has made a location and will operate partly on the White farm in the northeast corner of the J. E. Harrelson survey. The test will be located three-quarters of a mile southwest of Bessemer in Elstand country.

The Magnolia Petroleum Co. No.

1 test on the W. A. Hayes farm and located one-half mile from both the south and west lines of the W. A. Harris (Okla.) Mart. Fischer survey is a location.

The same company's No. 2 on the T. W. Connelly farm and located in the northeast quarter of the Connelly survey is a location.

The John York survey is a location.

The same company's No. 1 on the E. Barnes farm, located 150 feet south and 200 feet west of the northeast corner of section 21, along No. 6, T. & P. H. R. survey, is a location.

They are putting up a rig for No. 2 test on the Keppey acreage in the northeast corner of the northwest quarter of section 21, T. E. & L. company survey. No. 2 on this tract is now

drilling for the construction and designing en-

gineering work.

The Producers & Refiners corporation have completed a rig and are moving in tools for a wildcat test on their newly purchased interest in the Omega located in the northwest quarter of section 21.

The Alpha Oil company No. 1 on the Whitman farm in the northwest quarter of section 21 had about 1,000,000 gpm in the top of the Mississippi limestone encountered at 2,400 feet, and they are now shut down at 2,440 feet on run 2,430 when casting. They will go on down to the deeper pay.

The same company are rigging up

this week on their No. 1 well in the northeast quarter of section 25-22-8, and are moving up and ready to ready to move in their test on the northeast quarter of section 25-22-8.

The Brooks Oil company is drilling at 420 feet on their No. 1 test located in the southwest of the southwest of 20-21-11.

The Gypsy, Phillips & Harwell test located in the northeast of the northeast of 20-21-19 is rigging up for a test. The lease sold at the recent Omega lease sale for \$2,000,000, and is expected to be worth the money.

**Premiums Off in the Burk Field.**

Direct information is that no premiums of 10 cents a barrel, and as produced in the Burk Burnett district. The Western Petroleum com-

pany are putting up a rig for a test on the O. J. Wood farm and located 2,395 feet from the east line and 3,494 feet from the east line of survey 3,225.

In Stephens county the Magnolia Petroleum company have made locations for No. 2 well in the north-
